```
#include <iostream>
using namespace std;

int main() {
   char ch;
   cout << "Enter a character: ";
   cin >> ch;

   if (ch=='a' || ch=='e' || ch=='i' || ch=='o' || ch=='u' ||
      ch=='A' || ch=='E' || ch=='I' || ch=='O' || ch=='U')
      cout << "Vowel";
   else
      cout << "Consonant";

   return 0;
}
```
